

Natural simplicity in hCG testing.

Now with On Board Controls.

For the highest level of confidence . . . test after test.

TestPack® Plus™ hCG Combo with OBC®

The first one-step pregnancy test with built-in Positive and Negative On Board Controls.

Accuracy and ease-of-use have made Abbott TestPack Plus the natural leader in hCG testing around the world. Abbott now brings this same beautiful simplicity to built-in positive and negative On Board Controls.

Now you can be confident that each and every hCG test achieves the highest level of accuracy . . . with TestPack Plus hCG Combo with OBC.

Negative On Board Control

- Checks every patient sample for non-specific binding.
- Minimizes false positive results.
- Appears only if the test is invalid.

Easy-to-read results

- Positive result: +
- Negative result: -

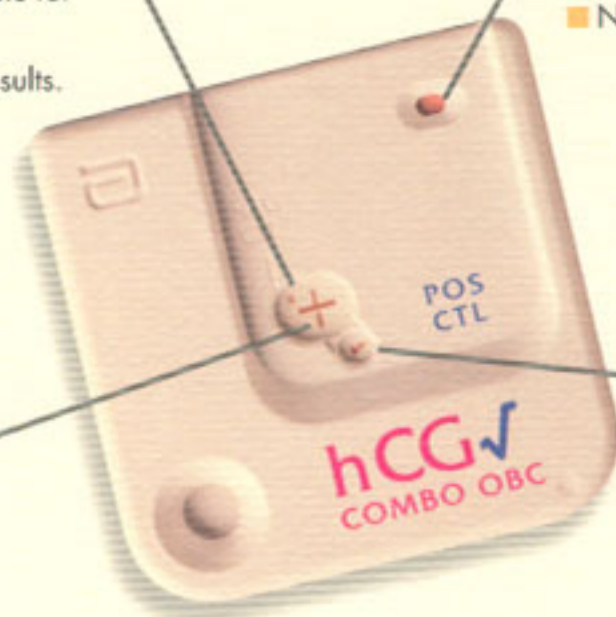

End of Assay Window

- Signals completion of test.
- No timer needed.

Positive On Board Control

- Demonstrates that test reagents are working properly.
- Indicates ✓ has actively bound hCG analyte.

TestPack® Plus™ hCG Combo with OBC® confirms that all test reagents are reactive — a critical function not available with other one-step brands.

Test Component Checked	TestPack Plus hCG Combo with OBC	Other Brands
Positive On Board Control Positive control checks conjugate function.		
Positive control checks capture antibody function.		
Negative On Board Control Negative control checks every patient sample for non-specific binding.		

Accurate

- Sensitivity: 25 mIU/mL
- Specificity: >99%
- Accuracy: >99% in laboratory trials
- On Board Controls confirm proper test function of each and every test.

Easy-to-use

- One-step procedure — just add urine or serum.
- No reagents needed.
- Walkaway convenience.
- Room temperature or refrigerated storage.

Easy-to-read

- +/- results are easy to interpret.
- Bold results are easy to see.

Fast

- Results in minutes.
- Minimal hands-on time.

Quality

- On Board Controls in each test simplify quality compliance.
- Confidence in every test result.
- Eliminates external controls: reduces labor and supply costs.

TestPack Plus hCG Combo with OBC
For the highest level of confidence . . . test after test.

TestPack® Plus™ hCG Combo with OBC®
For the highest level of confidence . . . test after test.
